Nalgonda

Courses

- BZC

Class XII

GOVT Jr. College Girls

06/2016 - 03/2018

Devarakonda

Courses

- BIPC

PERSONAL PROJECTS

Health Provider project.

- Meet Health Provider Finder: It's a simple Python app that works with the Steer Health API to find heart health specialists. Just type in a name, title, expertise, or location, and it'll do the rest. It organizes everything neatly in CSV or JSON files, and you can easily share and store them with the built-in zip feature.

Office Employee Management System.
(08/2023 - 09/2023)

- This project is an employee management system built using Python and Django.
- It allows users to manage employee records, including adding, removing, and filtering employees.

Restaurant Website (08/2023 - 09/2023)

- Restaurant Website using html and CSS.
- This is a simple website that has a main home page, types of food available, a food menu, free home delivery option, and discount voucher available.
- Also a contact form section on the restaurant website.
